2 CUP HALF FULL

Cupping is an ancient Chinese technique for increasing blood circulation, easing tension and firming up the skin, and it's made its way into North American spas in recent years. Canadian organic skin-care company Province Apothecary has now introduced a new facial cupping set, which you can easily use at home to smooth wrinkles and revitalize your visage.

3 STAR PLANT

All-natural, plant-rich formulations that provide ultimate moisture and protection for your skin are what has made Weleda a top-selling brand in natural skin- and body-care products for 100 years. The company's newest launch features refreshing prickly pear cactus extract as the star ingredient. Able to hold moisture in the skin while remaining lightweight, prickly pear is blended with aloe vera in this line of facial products to ensure beautiful, hydrated skin all day long.
